WEATHER SYNOPSIS

An ocean storm is approaching the North-west Coast, and fresh to high east and south winds are spreading inland over this province. Zero temperatures are general in the Prairies.

COMPLETELY DISARM ALL IS PROPOSAL

Soviet Delegates at Geneva Advocate Disbanding All Armies and Navies—No Arms Factories

NOT REGARDED AS POSSIBLE ACTION

Russians Themselves Have No Expectation That Programme May Be Accepted—Less Visionary Plans

GENEVA, Nov. 30.—Soviet Russia today proposed total disarmament of all nations, the disbanding of armies, navies, the dismantling of ammunition factories and the discontinuance of military service. The general opinion expressed, except possibly among the Russians, is that total disarmament is an idealistic dream for the present at least. Nevertheless, there is everywhere a disposition to give the Soviet leaders full credit for their professed readiness to wipe out armaments.

That the Russians themselves realize their plan to lay down all arms and to forbid their manufacture, is too idealistic, was shown, in the opinion of many by the fact that they voiced their willingness to negotiate a piecemeal form for the reduction of armaments of their radical project proved too revolutionary, and that they did not insist upon immediate consideration in detail of their sweeping programme. Such consideration was adjourned until the next session of the commission early in 1928.

NEW BRATIANU MAKES OFFERS

Rumanian Premier Proposes General Election With Result Agreed Upon by Parties in Advance

PEASANTS' PARTY LEADER UNWILLING

BUCHAREST, Nov. 30.—Vintila Bratianu, who assumed the premiership on the death of his brother, Ion Bratianu, conferred with Juliu Maniu, leader of the National Peasant Party, for two hours to-night in a renewed effort to reach a basis for the formation of a coalition ministry. It is considered highly improbable, however, that Maniu will accept the Premier's condition. The conference which created enormous interest was held at the home of M. Titulescu, the Foreign Minister, whose steadily improving health enabled him, as well as M. Duca, Minister of the Interior, to participate.

PROPOSALS MADE

The Premier presented several alternative proposals. The principal proposal was collaboration of the present government with the Peasant Party without dissolution of Parliament, which would envisage at least six portfolios for representatives of the Peasants' Party. A second proposal was collaboration with dissolution of Parliament—new elections to be held under a fixed period under a coalition cabinet with a neutral head, but with the proportion of seats in parliament fixed before the elections, and with all the parties represented in proportion to their strength.

LITHUANIANS DENY REPORTS

NO NEW GOVERNMENT FORMED AND NONE LIKELY BEFORE LEAGUE DECISION

No Program Prepared, No Request for Council Action Declared

KOVNO, Lithuania, Nov. 30.—Premier Waldemar, of Lithuania, accompanied by Dr. David Zaunius, former Lithuanian representative at Geneva, will leave for Switzerland Friday to represent his country at the forthcoming League of Nations Council discussion on Polish-Lithuanian relations.

No new government has been formed as yet to take up the task of handling Lithuania's relations with all the parties represented in Poland, and it was not likely one would be formed before the Lithuanian-Polish questions come before the League, because of the shortness of time.

Among the reports denied by the government are that programs are being prepared in Lithuania and that the Jews sent a delegation to the president; that Waldemar has asked German and Russian aid if Poland should invade Lithuania, promising in return to give Memei back to Germany; and that the British, French and Italian ministers, with representatives of the Baltic states have made fresh representations to Premier Waldemar concerning regulation of Lithuania's relations with Poland. All these reports were declared "pure inventions."

Tree Falls on Child

WHITE ROCK, B.C., Nov. 30.—Struck on the head when a lodged branch of a fallen tree fell from a standing one, a five-year-old Japanese child, was instantly killed today while playing in the woods near his home with other children.

The accident happened at the rear of the camp of the Japanese employees of the Campbell River Lumber Company.

Dr. F. D. Sinclair, coroner of Cloverdale, has decided that an inquest is not necessary.

CITY REGIME IS ATTACKED BY MR. DEAN

Candidate Enumerates "Unwise Steps" Taken During Years Mayor Pendray Has Presided

SCORES PURCHASE OF WATERWORKS

City Bound by Contract Impossible to Fulfill, Critic Tells Audience of Several Hundred People

PURCHASE of the Esquimalt Waterworks putting the whole of the water board, all-round increases in salaries for civic employees, the manner in which the city is dealing with superannuation, the importation of an alien auctioneer and of an alien industrial adviser, were the points on which Mr. John Dean, candidate for mayor, attacked Mayor J. Carl Pendray and the present City Council's administration in a two-and-a-half-hour speech before some six or seven hundred citizens in the Royal Victoria Theatre last night.

Ex-Reeve R. P. Matheson acted as chairman. He stated in opening the meeting that Mayor Pendray had been invited to attend the meeting and speak on the same platform. The Mayor had sent a letter regretting that he was unable to attend, as he had accepted a previous engagement to speak before the annual general meeting of the Vancouver Publicity Bureau. Apparently the Mayor thought the publicity meeting of more importance than meeting Mr. Dean on the public platform.

Mr. Dean, at the outset, gave an outline of the negotiations for the purchase of the water board, which had been going on since the time of the Council's purchase of the grain elevator project at a gallop with a hay rake, but they went through the worst mill at a snail's pace with a small tooth comb. And yet the worst mill project was the most important by-law of all those that had already been voted on because it was based on sound business principles and would directly employ 100 people from the start.

"Why do I come here tonight?" he asked. "Because I am dissatisfied, as I believe you are, with the present administration."

SEVERAL "UNWISE STEPS"

"To my mind there have been a number of very unwise steps taken during the three years His Worship has presided. I enumerate them: First there is the purchase of the Esquimalt waterworks; second, the surrendering of control of our whole waterworks system to an arbitration board, resulting in selling water for less than cost to Oak Bay and Saanich; third, all round increases in salaries of civic employees; fifth, importing an alien auctioneer, and sixth, importing an alien industrial commissioner."

ESKIMOS TO GO TO SOUTH POLE WITH COMMANDER BYRD

NEW YORK, Nov. 30.—The projected South Pole expedition of Commander R. E. Byrd will give the Arctic Eskimos their first opportunity in history to test the rigors of the Antarctic climate, the explorer told the Associated Press today.

Six Eskimos will be included in the Byrd Antarctic expedition next year, and will be given the opportunity to consider the feasibility of establishing an Eskimo settlement there, he said.

THIEVES WORK FOR NOTHING

Burglars Enter Montreal Store and Carry Safe Away—Found Empty

MONTREAL, Nov. 30.—Thieves operating in Montreal have for the past few months apparently acquired a penchant towards repeating their exploits in the same establishments. The harassed shopkeepers arranged in their own way means of making work of the marauders as unremunerative as possible.

Over the week-end thieves entered a branch of a chain grocery company and carried the safe away. That was their fourth visit in two months. The management, however, had one of the employees carry the money home so that the strong arm men received nothing but a lot of trouble for their pains. On the previous three visits the robbers secured \$500 and three safes.

Early this morning, another store, a jewelry establishment, was visited for the fourth time in six days. The modus operandi of these particular robbers was to throw a stick through the window, scoop up the miscellaneous contents and depart; but like their strong-armed, safe-breaking counterparts, the fourth break was not so good. The brick throwing and all other necessary steps for the coup were performed according to Hoyle, but the haul amounted to only \$40, the owners deciding not to display anything costly in their windows, fearing a repetition of previous thefts.

Construction In City Nears Record Point

BUILDING permits for the month of November total nearly half a million dollars. With the taking out of the St. Joseph's Hospital building permit by Luney Bros. Ltd., yesterday, and several smaller permits the building for the last month reached \$400,415. The value of permits for November of 1926 was \$37,896.

With the month of November showing such a gain in building permits for the first eleven months of this year now stand at \$1,519,555 for Victoria proper, not including the construction work carried on in Oak Bay, Esquimalt and Saanich. The figure for the same period last year was \$665,134. Even deducting the St. Joseph's Hospital building permit from November's total, the figures for the month would show a gain of \$1,452,421 over a year ago. The figure, minus the hospital permit, is \$44,415.

SURE MARKET FOR WORSTED IN DOMINION

Canadian Mills Will Not Have to Go Out of Country for Buyers; Is Report of Expert

TARIFF GUARDS ARE ADVOCATED

Analogy Drawn Between Canada and United States Justifies Extension of Industry Here

TORONTO, Nov. 30.—Mr. J. A. Burns, president of the Canadian Woollen and Knit Goods Manufacturers' Association, in his address to the ninth annual national meeting of the organization here to-day, reviewed the past eighteen months, pointed out that while general conditions in Canada had improved, and while conditions were better in a few branches of their industry, on the whole no improvement had been felt by the yarn mills, white blanket weavers, cloth spinners, cashmere hosiery knitters or the manufacturers of certain classes of knitted underwear. The bulk of the business was still going to mills in other countries, he said.

He had been asked why the scaling up of duties in Canada would assist our industry when the woolen and worsted cloth industry in the United States is not prosperous with their rates of duties. In the United States their cloth mills occupy 96.8 per cent of their home market, while in Canada our cloth mills occupy only thirty per cent of the home market; in the United States imports supply only 3.2 per cent of the market, while in Canada imports supply seventy per cent; in the United States there is enough machinery working single shift at 77.2 per cent capacity to supply their home market, while in Canada there is not enough machinery to supply more than half of the home market, even if working all time single shift. In the United States the problem of the woolen and worsted cloth mills is too much machinery which tariff adjustments cannot cure; in Canada the problem is too great imports which tariff adjustments can cure."

SIX INCHES OF RAIN DESCENDS

Precipitation in November Heavy Enough to Over-take Drought of Earlier Months in 1927

22.47 INCHES IN ELEVEN MONTHS

In spite of an unusually dry summer the rainfall during the month of November has caused the year's average to reach almost normal, 5.98 inches having fallen. This is 1.44 inches above the November average. The total precipitation for the year, from January 1 to November 30, was 22.47 inches, which is only 0.4 inch below average for that period. As the total average precipitation for the year is 27.45 inches, Victoria, therefore, is only 5.18 inches below average for the entire year. The heaviest November rainfall recorded since 1874 was 11.51 inches, in 1909, and the lightest for November, 1.6 inches, in 1884.

This month has been abnormally dull, said Mr. N. D. Denison last evening, there having been sixty-one hours and forty-eight minutes of sunshine, which is seventeen hours below average. During the month there were fifteen days without any sunshine at all.

The average temperature was forty-four degrees, which is five degrees below average. The highest temperature was fifty-six degrees, on November 16, and the lowest, 26, the lowest ground temperature was thirty degrees, on November 26, when killing frosts were general over the lower levels.

JAPANESE PRINCE GIVES UP TITLE AND ALL HIS PROPERTY

TOKIO, Nov. 30.—Two Matsukata, holding himself responsible for the failure of the Fifteenth Bank, called the "Peers Bank," because its stockholders and directors numbered most of the Japanese peers, has requested permission to abandon his title.

The prince, who was managing director of the bank, has decided to sell his remaining property, donating the proceeds to the settlement of the bank's affairs. The prince, who was a multimillionaire before the bank's failure last April, is now living in a small house on the outskirts of Tokio.

Missing Film Party Arrives Safe at Camp

SALT LAKE CITY, Nov. 30.—The thirteen members of the Colorado River expedition unheard from since they left Green River, Utah, November 10, were reported safe in a radio message received at the Fort Douglas station of the Army Signal Corps tonight. The message was sent from Camp Pearson, on the Painted Desert, Arizona.

The boats of the expedition were first seen by Indian runners above Lee's Ferry late this afternoon, and the weather-worn travelers were taken to Camp Pearson where their boats had been beached, a message said.

E. C. Larr, in charge of the party, said their sleeping bags were often lee-caked on the trip, the message stated.

By-Law Will Industrialize Property Now Idle

THE electors of Victoria are asked on Thursday next, in voting for the Worsfold Mill Guarantee By-Law, to take the initial step in bringing about a change in the character of the Armada estate. From the time when the breakwater and ocean docks were started at Ogden Point efforts have been made, first under private enterprise and now by the municipality, to which the bulk of the estate reverted, to develop this property industrially. On the Industrial Reserve there are now ten industries producing various articles, with two railways serving them. The city looks to develop in a similar way similar enterprises conveniently placed to the docks and barge connection with Mainland and up-Island ports.

Takes School Question To Privy Council

MR. LAFLUR, K.C.

Of Montreal, who presented a petition to the Judicial Committee of the Privy Council at London, for leave to appeal on behalf of the Canadian Government, against the decision of the Supreme Court of Canada in the question of the constitutional validity of the Alberta Education Act concerning the education of French-speaking children with the separate school system of Alberta's natural resources.

BOARD ADVISES WAGE INCREASE

Conciliation Board Investigating B.C.E.R. Dispute Reports in Favor of Victoria Men

SHOULD GET SAME AS IN VANCOUVER

OTTAWA, Nov. 30.—The Board of Conciliation, investigating a dispute between the British Columbia Electric Railway Company and the International Union of Street Railway Employees, has made its report to the Minister of Labor.

A minority report by the representative of the union on the board has not yet been received.

The board recommends that an agreement be entered into for a term of three years, from September 1, 1927, in the terms of the present agreement, but with certain exceptions. One of these is: "That motormen and conductors operating one man cars in Victoria be paid the same rate as men doing similar work in Vancouver; that is, sixty cents per hour. While it appears that the company is operating in Victoria without a profit, nevertheless we are unable to see why, under any principle, men doing the same work in Victoria ought not to be paid the same wages as those employed in Vancouver."

QUICK ACTION ON FLIN FLON

MR. H. P. WHITNEY COMPLETES PURCHASE OF 85 PER CENT INTEREST

Canada Cement Co. to Spend \$1,000,000 in Winnipeg Plant as One Result

TORONTO, Nov. 30.—Announcement has been made by the Mining Corporation of Canada, Limited, that Harry Payne Whitney, of New York, today exercised in full his option to purchase the Flin Flon properties in Manitoba. The Mining Corporation will retain a fifteen per cent interest and will also acquire fifteen per cent in all claims and interests separately owned by the Whitney interests in the Flin Flon district.

INSANE SAID TO BE ILL TREATED

California Grand Jury Asked to Inquire Further Into Charges Against Hospital

OAKLAND, Nov. 30.—Earl Warren, district attorney of Alameda County today announced that he would ask further investigation of charges of brutality and mistreatment of patients in Highland Hospital. The grand jury is to be asked to inquire into charges that opiates and narcotics were administered without medical authority, to patients who were insane or "noisy," that some of the testimony before the grand jury will show that opiates were administered "to save the attendants' work," so that the patients would be "obedient," and without regard to the ultimate effects of the drug on the condition of the patients. Much of the administration of the narcotics, it was charged, was without the knowledge of the physicians in charge.

PATIENT DIES

NAPA, CAL., Nov. 30.—Cathleen Jackson, Oakland stenographer, died at the Napa State Hospital for the insane here today as the result of poison taken while awaiting deportation to Canada.

Miss Jackson was said to have made recent suicide attempts with poison left within her reach.

Transfer of Miss Jackson to Napa while she was suffering from the effects of the poison was one of the acts of hospital authorities that led to an official investigation of charges. Mistreatment and abuse of patients took place at the city institution.

President of Canadian Chamber of Commerce Advocates Farming Interests Being Given Direct Participation, to Interpret Voice of Nation's Business to Authorities

NATIONAL FOREIGN TRADE CONFERENCE IS PROPOSED TO BE HELD AT QUEBEC

VANCOUVER, Nov. 30.—"Unless the voice of agriculture, our basic industry, is heard in our national discussions, the Canadian Chamber of Commerce cannot fulfill its object of becoming the clearing house through which the voice of Canadian business may effectively speak and be interpreted to the Government and the public," declared Mr. A. Melville Dollar, of Vancouver, president of the Chamber, upon his return tonight from the first meeting of the executive in Montreal and a tour of Manitoba, Saskatchewan and Alberta.

Mr. Dollar said plans for giving adequate representation and opinions from Canadian farmers were the most important results of the council discussion. Decision to hold the 1928 convention in Quebec in June or July, Mr. Dollar said, was reached for two reasons: First, so that Prairie delegates can attend, and, second, to bring together English-speaking and French-speaking businessmen.

Holding of a national foreign trade conference at Quebec next year, the first of its kind in the Dominion, was another important decision made by the council.

CHOLERA SWEEPS

Bengal Province, Bringing Death

CALCUTTA, Nov. 30.—A cholera epidemic is sweeping Bengal. Three thousand seven hundred and three cases, with 2,138 deaths, have been reported from all parts of the province, with the exception of Calcutta, for the week ending November 19. It is estimated here that if epidemic follows the ordinary course it will increase fifty per cent in December.

SCOTS CELEBRATE ST. ANDREW'S DAY

In London City

LONDON, Nov. 30.—There was plenty of haggis, Scotland's national dish, for the London celebration of St. Andrew's Day, but a scarcity of Scotch pipers to pipe the haggis to the tables, around which Highlanders and Lowlanders assembled tonight in homage to Scotland's patron saint.

The scarcity of pipers was due to the fact that many Scotch regiments are serving in the East. A piper was brought from Scotland to do full honors to the haggis. The largest dinner was held at the Hotel Savoy, where a thousand men and women of Scottish nationality assembled.

RUMANIA FINDS NEIGHBOR COSTLY

BUCHAREST, Rumania, Nov. 30.—While the League of Nations is urging the necessity of disarmament in the world, Rumania has devoted \$400,000,000 to war purposes in the coming year. This is \$6,000,000 more than last year and more than one-fifth the entire budget, totalling \$240,000,000. Only one-eighth of the budget, which was issued today, is devoted to education, the war apparatus being the largest. The Government defends the huge expenditure for military purposes on the ground that Rumania, constantly menaced by the border over a wide front by Bolshevik Russia, may at any moment on another front be dragged into conflict, if Italy should attack Yugoslavia or if the Soviets should engage in Poland in hostilities.

"Over a border of nearly 500 miles," said a Government official, "we are guardians of the gate of Europe against the entry of Bolsheviks. The expenditure of \$40,000,000 is not to provoke war but to prevent peace."

MR. DE VALERA TO CROSS ATLANTIC

DUBLIN, Nov. 30.—Eamonn De Valera, Irish Republican leader, who will shortly make a trip to the United States, will have conferences with political friends there, but does not contemplate addressing any meetings.

"My trip is not designed to raise funds but to maintain close cooperation with the American Association for the recognition of the Irish Republic, which is the basis in America of the Fianna Fail," Mr. De Valera said today.

TEN MILLIONS SPENT ON MILITIA IN YEAR

OTTAWA, Nov. 30.—Militia service in Canada during the year 1926-27 necessitated expenditures totalling \$10,402,651, according to the annual report of the Department of National Defence. This figure does not include \$809,154 for general air services. Flying operations by the Royal Canadian Air Force during the year showed a total of 5,229 hours of flying time, covering service flying, forest protection, aerial photography and fishery protection.

The active militia strength on March 31, 1927, was placed at 3,189 ranks other than commissioned officers.

Resourceful Child

VANCOUVER, Nov. 30.—Six-year-old Ruby Tibbitt had a narrow escape from death tonight when the home of the child's mother on Hastings Street East was destroyed by fire. According to the story told the police by the child, she was alone in the house and asleep in bed when she was awakened by the crackling of fire and the smell of smoke. Breaking a window she screamed for help and neighbors attracted by her calls, rescued her.

A Warm Home Starts a Cold Day Right

A piping hot breakfast in a warm, cozy dining-room. There's nothing like it on a bitter cold morning. To make rooms warm in early morning is one of the essentials of a good heating plant. To meet this demand surely, easily, and economically requires quick action, immediate response to the open draft, a full volume of healthful heat. These are just the advantages you will enjoy with a Sunbeam Warm-Air Circulating System.

And you'll find that every room in your home will be comfortably heated by fresh, moist, warm air all day long. But at the end of the month, when you figure up the cost of this better heating, you'll find that your Sunbeam has made a very worthwhile saving.

Just see, phone, or write us today for full details.

MR. ORMOND RE-ELECTED

WILL AGAIN HEAD ISLAND DIVISION OF B.C. HONEY PRODUCERS' ASSOCIATION

Holding of Honey Week in City Is Postponed—Registration of All Beekeepers Mooted

Mr. O. B. Ormond was re-elected by acclamation as president of the Vancouver Island Division of the British Columbia Honey Producers' Association, at the annual general meeting of the organization, held in the Maple Room of the Parliament Buildings yesterday.

Mr. W. L. Perrier was chosen vice-president, and Mrs. F. A. Greenwood was reappointed secretary-treasurer. Mr. J. M. Nobbitt was again named auditor.

The directors elected for the next twelve months were as follows: Mr. J. A. McIntyre, Port Alberni; Mrs. Frank, Cowichan Station; Mrs. F. A. Greenwood, Saanich; Mr. W. J. Sheppard, Victoria; Mr. Stanley Hasenleh, Millers; Mr. W. L. Perrier, Marigold; Mrs. McQueen, Brentwood Bay; Mr. C. W. Newbury, Saanich; Mr. Henry Hearn, Victoria; Mr. J. M. Nobbitt, Saanich; Miss Turley, East Wellington; Mr. T. H. Maynard, Victoria; Mr. J. Hunt, Sidney, and Mr. Milne, Metchoin.

NAMED DELEGATE

The Island Division re-elected President Ormond as its representative on the central executive of the British Columbia Honey Producers' Association, and recommended that a meeting of the said executive be held early in January.

President Ormond suggested that efforts be made to have all beekeepers in the province register with the honey producers' associations, and this proposal was thoroughly discussed. It was finally decided to ask the central executive to consider the advisability of taking steps to bring such registration into effect.

It was proposed that a collection of honey from up-island beekeepers be secured for the next exhibition, and that the prize list be revised. A committee comprised of Messrs. O. B. Ormond, T. H. Maynard and W. J. Sheppard, was named to superintend this work. It was pointed out that exhibitors in future must use the uniform style of jars for their exhibits.

PROJECT POSTPONED

Mrs. F. A. Greenwood sponsored the idea of holding a honey week in Victoria next week, to popularize Vancouver Island and British Columbia honey, and get more people to use it. The matter was fully discussed, and it was decided not to proceed with such a project at the present time.

The president, Mr. Ormond, was the recipient of a hearty vote of thanks for the efficient manner in which he had directed the activities of the organization.

APPEAL COURT TO GIVE DECISIONS

Judgments in the appeals of Lore Yip against a drug conviction, Leen Foon against a four-year sentence for assault, Russell Stonehouse and William Pasquale against life sentences, and Angus Nicholson against a four-year sentence for manslaughter will be delivered by the British Columbia Court of Appeal here at 11 o'clock this morning. It was announced at the Court House yesterday.

Leave was granted yesterday to Crown and defence counsel, to appeal against the four-year sentence and \$1,000 fine imposed at the recent Fall Assizes in Vancouver, by Mr. Justice W. A. Macdonald, on Lim Jim, prominent Vancouver merchant, and resident on the Mainland for twenty-seven years.

Lim Jim was convicted of opium and also being in possession of opium, and was sentenced to two four-year terms to run concurrently. He was also fined \$500 on each charge. In passing sentence, His Lordship described the accused as a wholesaler in the drug traffic, and said the sentence would have been heavier but for a petition for leniency which was signed by well-known business men of Vancouver.

Mr. H. S. Wood and Mr. Gordon Wisner, counsel for the Crown, asked leave to appeal the sentence on the ground that it was not severe enough. Mr. J. A. Russell, on behalf of Lim Jim, sought leave to appeal the sentence on account of its severity.

HAZING BANNED

TORONTO, Nov. 30.—Hazing or initiation practices at the Ontario Agricultural College, Guelph, have been banned by Hon. J. S. Martin, Minister of Agriculture. It was announced today. The minister's action was prompted by the recent hazing of Edward Beddoes, young English student at the institution who was imprisoned in a pig crate and "sold" in front of a crowd in the streets of the city a few days ago.

Mr. Martin takes the ground that hazing is, in effect, little short of mob law in a mild form, and states that students who participate in any future affairs of this kind will be immediately expelled from the college.

Brokers Raided

VANCOUVER, Nov. 30.—Offices of C. P. Porter & Company, limited, brokers, Hastings Street West, were raided by Vancouver police officers at 11 a.m. All books and documents in the place were seized and transferred to police headquarters, where they will be examined. No arrests were made in connection with the raid.

The seizure followed recent investigations into the operations of several brokerage firms in Vancouver. A conference of police commissioners and officials on the subject was held on Monday.

INDIAN DRIVER ADMITS GUILT

"Firewater" Plays Part in Accused's Action of Leaving Automobile to Common Danger

Pleading guilty to driving an automobile on Johnson Street to the common danger, Harry Dick, an Indian, was fined \$25 or ten days in jail in default of payment, by Magistrate George Jay in the City Police Court here yesterday.

The Indian, who was arrested by Constable Littlefield, admitted to the court that he had been drinking before he drove the automobile on the said thoroughfare, and pleaded guilty to the charge. Chief of Police John Fry related the circumstances of the case.

After impressing upon the accused the seriousness of the offence, Magistrate Jay remarked that there were careful instructions placed on the said thoroughfare, and that a number of such licenses had been produced in the police court by people who could neither read nor write.

"Such people, therefore, cannot be expected to know the Motor Act or regulations of the road here," commented His Honor.

Charles B. Lewis was arraigned on a charge of unlawfully wandering about and begging. He secured a remand until this morning.

He: Will you be my partner—She: Oh, George, this is so sudden! Give me a little time—He (continuing): For the next dance?

She (continuing): To catch my breath. I haven't recovered from the last fox trot yet.

COLQUITZ WOMAN PRAISES GREAT NEW MEDICINE

Says It Is What She Has Been Looking For—Thousands Are Using It With Amazing Results.

Hundreds in Victoria and vicinity are now using a wonderful medicine called "Husky" which relieves stomach, liver, kidney and bowel ailments and strengthens the entire system, and that it is a medicine of surpassing merit is well indicated by the way its fame is rapidly spreading throughout the country.

Mrs. Edith Annie Taylor, Newberry Street, Colquitz, is using Husky and she says there is no doubt about it being a great medicine. Telling of her experience with Husky, she said:

JOHN ADAMS

"Before I started using Husky I was suffering continually from indigestion. All food disagreed and I was always having heavy, dull headaches. While looking for something to relieve this condition I heard about Husky and gave it a trial. From the first bottle I began getting relief and I consider Husky a wonderful medicine for relieving indigestion, toning up the system and making one feel better in general. I think that I know a good medicine, as I had tried many medicines without any results before I turned to Husky."

Turn to Husky when your vital organs are sluggish and are causing you to suffer from such ills as headaches, dizzy spells, indigestion, gas and sour stomach, constipation, catarrhal affections, rheumatic pains, nervousness, unsound sleep and weak, worn out feelings.

Call at the MacFarlane Drug Co., where informed pharmacists will gladly explain to you how best results are obtained from this wonderful preparation. Husky can be obtained at MacFarlane's and other good drug stores everywhere. Inquire today about

GOLCONDA WORK TO PROVE TONNAGE

Anticipated Shaft Workings Will Reach Vein in Week—Raise Ore Persist

SPOKANE, Nov. 30.—Full faces of ore appear both east and west in a drift from the raise in the property of the Golconda Lead Mines, according to a report from Mr. William Besudry, superintendent, Wallace, Idaho, received at the offices of R. F. Castle & Co. here yesterday.

"The west drift has been run eighty feet," says the report. "A sample from across the face contained ten per cent lead, six per cent zinc and six ounces of silver to the ton. Several rounds have been put into the east."

A station has been completed on the 200-foot level of the shaft workings, and a cross-cut has been driven sixty feet towards the vein, 100 feet distant by estimate. Arrival is expected at this vein within a week. This operation is 37½ per cent lower than the raise where ore is undergoing development.

"Ore broken in the course of development is being stored," says the report. "About 500 tons on the dump has a lead content estimated at ten per cent. A spur will be built from the main line to the mine, which is only a few hundred yards away."

MOTHER SEEKS MISSING SON REPORTED HERE

The mother of Everard Allison Muir Smith, who resides in England, requests police assistance in an effort to locate her son.

Mr. Smith lived in Victoria before the war. He enlisted in the 30th Battalion. While serving as a sergeant with the 15th Battalion he was wounded May, 1915. He returned to Canada, and was discharged in Victoria in 1919. His address was general delivery. Nothing has been heard of him since 1926. He was engaged in farming and also worked on the railways. He may use the name of Muir. His age is given as about thirty-eight years and a photograph is held at headquarters. The superintendent of Provincial Police would be glad if any information concerning the whereabouts of this man would be communicated to his office.

MARITIME STUDENTS TO TOUR DOMINION

FREDERICTON, N.B., Nov. 30.—Douglas H. Fulton, representing the University of New Brunswick, Egbert Paul of Acadia University and a student from Dalhousie University, Halifax, to be selected, will be the personnel of the Maritime Universities touring team which is to tour Canada during the winter. The tour will be under the auspices of the National Federation of Canadian Universities and will begin the last of January.

Absolute Denial Given by Head of E. W. Gillett Co.

Mr. George H. Macfarlane, president, E. W. Gillett Co., Ltd., manufacturers of Magic Baking Powder and other well-known food products has today authorized the statement that the owners of the controlling interest in the stock of his company have not sold, exchanged or otherwise disposed of their stock, that no negotiations have been or are now pending to that end, and that they do not intend to sell or otherwise dispose of their holdings in his company. Mr. Macfarlane further stated that no merger or consolidation with any other company has been or is being considered.

This statement has been authorized because of the many rumors that have been circulated recently to the effect that E. W. Gillett Co., Ltd., is in process of being sold or was to be merged or combined with some other corporation. These rumors are entirely contrary to the facts.

DUKE OF YORK ON SOCIAL WELFARE

LONDON, Nov. 30.—A plea for Britain to give the lead to the Dominions in matters concerning the welfare of the workers and for closer co-operation in welfare work was made by the Duke of York presiding at the annual meeting of the Industrial Welfare Society of which he is the president.

After referring to his Australian tour, the Duke said:

"We should endeavor to hold ourselves at the disposal of those employers in distant lands, who look to this, the oldest industrial country, for a lead in all those matters relating to the human factor in industry with which we are concerned."

CONFLICT UPON PRECIPITATION

While Coast Dries Damp Clothing, Interior People Regard the Season With Equanimity

WET AND DRY CYCLES STUDIED

While the scientific records afforded by the Meteorological Department indicate that the past month, while a very wet one, has not been a record producing one for November, there is a general impression in the minds of the public that for some time exceptional conditions have prevailed.

This state of affairs occurs throughout the whole of the Province, and in fact is a condition that applies to the whole of the Northwest. The effects of the prevailing rains have not been entirely welcome, although in many parts there has been considerable loss.

WELCOME IN INTERIOR

In the dry belt of the interior of the Province of British Columbia the weather conditions have been such as to promise well for the farmers next season. The rains that have been frequent and heavy for some time past are exactly suitable to the requirements of the agriculturists. In addition to the present advantages, the promise is excellent for next year. Some people, who have recently visited the irrigated sections, say that the rains have had the effect of imparting sufficient moisture to the soil that it is anticipated that next summer there may not be nearly the amount of water required.

While this is true with respect to the farming operations, the precipitation that has characterized the past few months, and the promise for the future means that the mountains will be well covered this winter with snow, with the advantages that this gives to the mining industry as well as in the line of irrigation.

But there is another class which is following the situation with interest, and this is the various engineers who have to make provisions for power for industrial and other requirements. The increased rainfall over some years past is to them the source of the greatest satisfaction.

Of necessity these men must be practical. They must provide for the needs of the enterprises with which they are associated, and on the other hand are accustomed to keep records to serve their purposes, which may be of more than passing importance in the detection of rules by which Nature carries on her work. They may not be the most exact of the kind, but

His Charges Probed At Ottawa

MR. RICHARD A. MCCLYMONT of Ottawa, former civil servant, whose charges of "extraneous waste" in the interior department of the Federal Government are being probed by a Royal Commission.

they nevertheless afford some valuable guides for future action.

RAINFALL IN CYCLES

It is stated that these records indicate that there is a system of cycles observed by Nature, and that these may be roughly classified as covering thirty-five and seven year periods.

Following the system it is contended that after the three years of exceptionally dry weather the indications are now that the wet part of the cycle is being entered. Moreover, it is the opinion expressed by two thousand specialists lined the galleries and filled the main floor of the building when His Honor arrived, accompanied by Miss Helen Mackenzie, Major Selden Humphreys and Mr. A. M. D. Fairbairn. They were welcomed at the entrance by Dr. Clem Davies, Temple pastor; Mr. C. D. Deaville, past president of the City Temple Band; William T. Bridge, president, and the vice-president, Capt. Burgess Gadsden; the City Temple Band, which played the National Anthem and a guard of honor of sixty pupils of Miss Mena Jewell, youthful dancers in costume, who curtsied gracefully as the visitors passed to their places on the platform.

BORDER RULING TO BE ATTACKED

Scottish Canadian Brings Case Before Court—Visas or Passports Required

BUFFALO, N.Y., Nov. 30.—An attempt to restrain the Federal Government from enforcing a new border ruling restricting entrance of Canadian nationals into this country, failed in district court today.

Ruling on an application for a restraining order, made by James Kemp, of Niagara Falls, Ont., who owns a business in Niagara Falls, N.Y., Judge Hazel advised the applicant to submit to arrest tomorrow, when the ruling becomes effective and to ask for habeas corpus, thus bringing the case into the jurisdiction of the district court. The judge ruled that his court has no jurisdiction until the new regulation takes effect.

Under the new ruling immigrants of either quota or non-quota class must comply with a visa requirement before they are permitted to enter this country, but the order does not apply to native-born Canadians, who, with proper credentials, may commute across the International border, to work here. Foreign-born Canadians, however, must obtain visas or passports. Kemp was born in Scotland and came to Canada in 1922. He crosses the International border daily.

HALF CITY FLOODED; FAMILIES MAROONED

ELMIRA, N.Y., Nov. 30.—Half of the city of Elmira was under four or five feet of water this morning in the most disastrous flood the city has ever known. In some places the water was at least fifteen feet deep. At least 300 families were marooned on the second stories of their homes early this morning. Dykes constructed under the city's \$500,000 abatement program gave way, letting the flood waters of the Canisteo River into the city.

London Paper Says Minister Should Pay

LONDON, Nov. 30.—The Evening Star, commenting on the fact that the sum of £2,500 has been voted by Parliament to cover the expense of the Empire-wide tour of Lieut. Col. L. C. Amery, Secretary of State for Dominion Affairs, says that such ministerial jaunts are becoming a habit.

"Most of us," The Star says, "could do them at very much less cost, even without the extensive free entertainments and hospitality Col. Amery is having." The Star further says: "Doubtless it is excellent for the ministers to familiarize themselves with the lands whose problems they are called upon to deal with. But it would be better to do so at their own expense as Marquis Curzon did."

TUG GOES AGROUND

BELTINGHAM, Wash., Nov. 30.—The tug Pannos, en route from Ladysmith to Bellingham, with a scow load of coal, went aground on Copper Reef, about two and one-half miles southwest of Turn Point light, Stuart Island, this evening. She has a crew of four men. The tug Holyoke was sent to her relief this evening.

FAIR OPENED BY HIS HONOR

THE LIEUTENANT-GOVERNOR ATTENDS CITY TEMPLE BAZAAR

Between Four and Five Thousand Visitors Patronize Big Undertaking at Armories

The hum of a great mart thrrobed and pulsed within the walls of the big Bay Street Armories yesterday, where, at three o'clock, His Honor the Lieutenant-Governor, formally opened the annual Christmas Fair and Circus of the Victoria City Temple. A crowd estimated at between four and five thousand visited the place in the course of the afternoon and evening, and a pleasant confusion was made in the mind by the combined effort of multitudes of passing figures, brilliant lights shining down upon gaily decorated stalls and up into a roof of swinging past-colored ribbons, of band and radio music, pianolas, Ampico, merry-go-rounds and eating stalls, ringing calls from kiosk and kitchen, and gavel bangings to call attention to Punch and Judy show, or circus. It was all very much in the holiday spirit, animated, exciting, and the remaining three days of the week should be an ever-increasing stream of visitors seeking the place for the entertainment it affords.

At 9 o'clock on Tuesday the hall had its customary air of military formality and gloom. Two or three minutes later an army of 400 men and women invaded the premises, and by midnight a transformation had been effected, powerful lights installed, the great girders of the roof hidden under swaying bands of pale green, pink, blue, yellow and mauve; skeleton stalls erected; kitchens made ready, and everything but the actual finishing touches for the great four-day fair and circus made ready.

The Lieutenant-Governor commented on the transformation in his opening remarks, congratulating Dr. Clem Davies and his City Temple workers on their achievement. Fully two thousand specialists lined the galleries and filled the main floor of the building when His Honor arrived, accompanied by Miss Helen Mackenzie, Major Selden Humphreys and Mr. A. M. D. Fairbairn. They were welcomed at the entrance by Dr. Clem Davies, Temple pastor; Mr. C. D. Deaville, past president of the City Temple Band; William T. Bridge, president, and the vice-president, Capt. Burgess Gadsden; the City Temple Band, which played the National Anthem and a guard of honor of sixty pupils of Miss Mena Jewell, youthful dancers in costume, who curtsied gracefully as the visitors passed to their places on the platform.

His Honor expressed his pleasure at being present at such an interesting affair on such an interesting anniversary as St. Andrew's Day. Surely, he said, no more auspicious occasion could have been chosen, society owing much to St. Andrew for his good works in helping the fallen and aiding the needy. To Dr. Davies His Honor paid a cordial tribute when he said that the city possessed in him a great asset for his home, his church, his educational work; he hoped he would be spared for many years to continue his energetic activities.

PRESENTS BOUQUET
At the conclusion of this address, which was much applauded, little Julia Whiddon stepped forward and presented a bouquet to Miss Mackenzie. A tour of the fair followed. His Honor stopping at the food stalls to chat with the saleswomen and showing much interest in their wares. Miss Mackenzie made several purchases, and His Honor made a handsome donation to the fund. The remainder of the time was spent by the visitors in watching the dancing and other features of the program. His Honor listening appreciatively to the Scottish numbers played by the City Temple Band in honor of the occasion. He was also greatly interested in the Scottish dances by Miss Jewell's children, and before leaving Miss Mackenzie specially congratulated the instructor. The circus and Miss Bell Wheeler's marvelous trapeze work also held the visitors' attention for some time, and their stay extended to more than an hour.

The lighting this year, carried out by the Sun Electric Company, under Mr. Don LeClerc's direction, and the B.C. Electric Company, is greatly superior to last year's, and vividly reflects the whole effect. The wiring, incidentally, has all been officially examined by the city wire inspector.

Every foot of space in the Armories is filled. About fifty stalls are dotted about the floor or flank the walls, all beautifully decorated. Conspicuous among the novelties in this connection is "The Old Woman Who Lived in a Shoe," the vast shoe filled to overflowing with hand-dressed dolls of every size, color, age and nationality. Her's circus, performing twice daily, is another big attraction, with ponies, monkeys, dogs and a bear going through clever antics to the accompaniment of band music. Ready is an elevated platform on which amazingly clever young gymnasts "throw" somersaults, climb ropes and trapezes, play leap-frog, and carry out extraordinary feats of agility and nimbleness.

GIPSYLAND

The western end of the gallery is given up entirely to Gipsyland, where dark-eyed, mysterious dames in tents tell strange tales of the past and the future. In an ante-room downstairs is the Punch and Judy show, a boisterously funny entertainment, the mere announcement of which is the signal for a general movement in that direction by all the younger patrons of the bazaar.

Afternoon tea is a popular feature, and under Mrs. Parsons' direction an excellent dinner is being served every evening. The dining-room was crowded at 6 o'clock yesterday.

Clear Your Skin Of Disfiguring Blemishes Use Cuticura**Candidates for Aldermen Now Number Eleven**

MR. W. H. Sargent, of 1515 Vining Street, railroad foreman, who was a candidate for alderman in the election of December, 1924, will again be in the field this year. Mr. Sargent filed his nomination papers at the City Hall yesterday, thus bringing the total number of candidates for aldermen up to eleven. He is proposed by Louise Margison, of 1448 Vining Street, and Mr. Charles S. Bonley, of 1815 Belmont Avenue.

terday and by 7 the standard menu was exhausted.

The Russian ballet, under the personal direction of the Rusnoff School of Dancing, is a brilliant performance. Russian, Hungarian, Spanish and other national dances being presented in costume.

Among the numerous trade exhibits which compose an interesting part of the fair are those shown by Weller Brothers, Plimley & Ritchie; W. H. Malkin, Limited; 3100 Commercial Company; the Hudson's Bay Company; Willis Pianos, Limited; Carter's Store Works; the B.C. Electric Company, Limited; the Baker Brick Company, Limited; the Curby Electric Company, the Blue Ribbon Tea Company; Eve Brothers, Limited; W. D. Tablet Commemorates Pirates of Penzance

NEW YORK, Nov. 30.—On the side of a gloomy old building in the cloak and suit district today hangs a memorial tablet bearing this inscription: "On this site Sir Arthur Sullivan composed the 'Pirates of Penzance' during 1879." While Gilbert & Sullivan followers jammed the streets of the dingy old section last night, Walter Damroch climbed a ladder in front of 45 East Twentieth Street and pulled aside British and American flags, revealing behind them the small bronze tablet. The loft stands on the site of a little hotel in which Sir Arthur worked to fight the producers who had stolen his "Pinafore" music. This was before the advent of the copyright laws to protect writers and composers, and he had been compelled to come to this country to outwit the "play pirates."

PRESBYTERIAN TITLE

TORONTO, Nov. 30.—The question of appealing to the Supreme Court of Canada for a "friendly decision" in regard to the legality of the use of the name "Presbyterian Church in Canada," has been discussed at various times by the executive council of the United Church of Canada, but no course in the matter had been decided upon, said Rev. Dr. S. W. Falls, of the United Church Council today. The attention of Dr. Falls had been directed to a dispatch from Victoria, B.C., quoting Rev. Dr. Endicott, Moderator of the United Church, as suggesting that both sides "should submit the matter to the Supreme Court for decision in a friendly way."

SHOOT AT "HATE TARGETS"

At eighty per cent of the Soviet factories in Russia the workmen engage daily in rifle practice. The propaganda department of the commissariat of education is supplying them with targets, which take the form of popularly hated persons. One of the favorite targets is a representation of Sir Austen Chamberlain wearing his famous monocle. The factory chiefs give a prize to the workers who hit the monocle. An effigy of Vice-President Dawes is also used.

THE DARWINIAN THEORY

Sir—Darwin's theory of natural selection leading to the survival of types which acquire, by means of their methods of life, certain desirable qualities, and which are not intelligent unless we postulate the working of a non-material principle. That is to say, Darwin goes to pieces unless the mind of the Creator is invoked as the first cause of evolution.

On the other hand, the modern Professor Shull ascribes variation to accidental chemical mutations in egg-cells, which is an attempt to explain evolution on material grounds, and to substitute chance for mind. So that, according to Shull, if one acquires qualities of body and mind, that will not affect one's offspring otherwise than by living example.

Modern materialism is due to perversions of Darwinism, and to attempts to fight against the truth. Certain leaders of religious thought have been afraid of Darwinism and theories of evolution. Those who cannot reject evolution, therefore, often consider that the leaders of religion are not sincere, and they become agnostics and atheists.

As soon as religion finds itself reconciled to the truth of the doctrine of evolution, many who previously considered the parson to be a humbug will see that the clergy are, after all, in the main, disciples of Him who came to bear witness of the truth.

I am glad to see that several readers of The Colonist are with me in hoping that the lead of Bishop Barnes will be followed. The real leader seems to be Dr. James Wilton of Worcester, who is an older man than Bishop Barnes.

DISFIGURING BOOKS

Sir—Seeing the freedom of library patrons is under discussion, I write in the hope that this may catch the eye and possibly stir the conscience of those who are in a position to do good. I have today come across another example of this disgraceful disfigurement of other people's property.

Most people, I imagine, borrow a book to get the author's point of view, and not to be misled by the opinions of others. I suppose they are the work of a few fanatics who find this a cheap way of propagating their peculiarities.

The impudence of such mutilation of public property does not seem to occur to these offenders. Personally, I may say, I take some pleasure in erasing such comments, and in destroying the sense of the same.

HARRY V. HITCHCOCK.

St. Mark's Vicarage, Victoria, B.C., Nov. 29, 1927.

THE NEXT WORLD WAR

Sir—In reply to Mr. Perry's letter in your issue of November 1, I would say that I am aware of the item of news reported. It apparently has not occurred to Mr. Perry that the author of the statement possibly is accurate. The fact is that Mr. Basil Stewart has denied the statement attributed to him, as quoted by Mr. Perry, which was widely broadcast by the agency that sent out the misstatement.

I should like to disabuse Mr. Perry's mind of the idea that British Israelites are as bloodthirsty a people as he appears to think they are. They, with untold numbers of others, suffered and many still are suffering, from the baleful effects of the last terrible war, and are striving now, not to bring on a repetition of those conditions, but to show that there is a refuge from the darkening storm, being pointed out by so many as looming on the horizon, which they fear will engulf the world.

W. H. BLACKALLER.

A TENTH PROVINCE

Sir—Many of us read with regret an article in The Sunday Province, published in the Esquimalt, which derides Peace River aspirations to form the tenth province of Canada, and suggesting that every obstacle will be put in the way of the people of the Peace River country helping themselves. Perhaps The Sunday Province speaks the truth when it indicates that sectionalism on the part of the people of the province in the manner with the great northern hinterland. Permit me, however, to make a few observations.

Do you know that long after the Alderman Mack outlined his policy in connection with bringing industries to this city. He said that the principal of bonusing industries was to be in the event of a bonused industry failing the ratepayers would be saddled with a heavy debt. His interests were invested in Victoria, and it was of much concern to him as to any other citizen to see the city advance.

He realized that a great deal of competition entered into the securing of industries. He advocated what he believed to be a reasonable inducement, such as free land, tax exemption and free water for stipulated periods. This was as far as the city should go, however.

Mrs. Emma Crocker, the only woman candidate for alderman, said she had been approached by several large women's organizations and felt that the women of this city needed someone to represent them on the council. If the women of this city felt that they needed a representative then she would solicit their support at the polls.

Mr. P. R. Leighton said he was running for alderman because he had criticized the council. He thought the new water rates were not right, and the right principle, and did not give a fair reduction to the customers. The parks board also needed "livening up," too little was being done by the board to make the more attractive. He also advocated the strengthening out of the "absurd" system of municipal law.

Mr. J. B. McMillan, candidate for school trustees, spoke of the need of technical education in the schools, while Trustee Alex. Feden, seeking re-election, said that economy on the School Board should not be carried out to the detriment of the children. If the School Board could reduce the cost of education without detriment to the children that body would be pleased to do so.

What have the Provincial and Federal Governments done for the Peace River country? Surveyed the land, yes, as a method of taxation. Administered from Ottawa, hundreds of thousands of dollars have poured out of the North into our Federal exchequer. Why the oil leases of Peace County alone paid \$500,000 in 1918-19 in to the Federal Government. What has the North received in return? A railway—a kind, 404 miles from

Edmonton to Grande Prairie, a distance of 200 miles as the crow flies. Built on three sides of the square, to get out the timber of the North—timber held by the speculators who shared in the building of the railway. To reach their natural outlet, the Peace River country, the long-suffering people of Peace River travel 800 miles and are then, near Jasper, only 150 miles from their starting point. What they hear rumors that it is proposed that what British Columbians have long regarded as their pet white elephant, the P.R.C., is also to be added to their horrid.

The reference in The Province to the effect that creation of a new Peace River province would interfere with the ridings of honorable members of the British Columbia Legislature is unworthy of debate. The electors of the honorable gentlemen cited are all in the southern portions of the province; the remote stretches of their ridings are uninhabited, and are included for purely administrative purposes. The difficulty of a boundary adjustment is not insuperable. The present political and administrative boundaries of the Peace River are rather impossible. The British Columbia block does not enjoy a very full share in representative government. Their members live at Prince George and their participation in his nomination is about as complete, save for greater transportation difficulties, as ours would be if I could cut myself out of the south of Vancouver Island placed in the Provincial riding of Regina, in Saskatchewan, and with interests as identical.

The fear is expressed that in the creation of a new province as large as Manitoba, and unequalled in resources by any of the rest of the Lakes, we would be losing one of the most valuable areas of British Columbia. This would mean the loss of a large part of the economic point of view. Let Charles Fredericks and the men of the North make a new province; encourage them in every way possible, and in a decade or two you will have 500,000 people in the new province, economically complementary in every way to the lower mainland; then will Vancouver and Victoria have occasion to double and treble their populations and industries. Let the North work out its own salvation, and in losing the administrative cares of the vast hinterland you will make possible the development of the wealthiest and the most populous cities in Canada right here on the lower southwest corner of British Columbia.

NINA MORGANA CONCERT

Sir—I have just read your correspondent's account of the Nina Morgana concert and heartily agree with the praise given to the singer, but how about the accompaniment? Never has there been heard in this city a more sympathetic or finished performance of the evening.

Miss Alice Vaiden.

I would like to draw the attention of the authorities to the unnecessary and unnecessary crowding of the lobby after the performance. This was caused by certain people waiting for their limousines and so blocking the exit of the most popular singer in Canada right here on the lower southwest corner of British Columbia.

FIVE CANDIDATES SPEAK AT ROYAL

Other Candidates to Address Gathering

Four aldermanic candidates and two school trustee candidates were extended the privilege of speaking at Mr. John Dean's election meeting in the Royal Victoria Theatre last night.

Mr. J. A. Shanks was the first to speak. He said that, while he agreed with Mr. Dean in many respects, particularly as to the purchase of the Esquimalt, he had fought against, he did not see the need of abolishing the indemnities for aldermen and mayors. If this were done it would operate against the working class and that class of ratepayer had a right to be represented on the council.

Alderman Mack outlined his policy in connection with bringing industries to this city. He said that the principal of bonusing industries was to be in the event of a bonused industry failing the ratepayers would be saddled with a heavy debt. His interests were invested in Victoria, and it was of much concern to him as to any other citizen to see the city advance.

City & District

To Invite Trustees Candidates—The Okanagan Parent-Teacher Association has decided to invite candidates for the city school board to place their views before it at its meeting on Monday.

Reception to Premier—Extensive

arrangements have been made for the reception in Vancouver this evening to Hon. J. D. MacLean and Mrs. MacLean. The Premier will speak on the interprovincial conference, it was stated.

Minister Invited—In his capacity

as honorary president of the British Columbia Chamber of Mines, Hon. William Sloan has been invited to speak at the opening of the Winter series of lectures in Vancouver on Friday. The lecturer will be Mr. J. D. Galloway, provincial mineralogist.

Coal Production—A new shipper

appears in the list of operating mines on Vancouver Island, in the report of October just issued by the Department of Mines, in the District of the mine, the last being as follows: Canadian Collieries, 7,380 tons; Western Fuel Corp., 44,785 tons; Grangey Coal Co., 13,949 tons; East Wellington Colliery, 4,942 tons; Diamond Jubilee Mine, 54 tons; total, 109,926 tons.

Alleged Buckshot Operations—

It was reported yesterday that at least one high pressure stock sales concern made a brief appearance here recently, with large telephone bills, and as now engage the attention of the Vancouver Police Commission. The operators disappeared as silently as they came, and their existence was repudiated by the firm, a bona-fide one, in Montreal, whose reference was used.

Mails for Yukon and Alton—The

next mail for the Yukon and Alton will close at the General Postoffice at 4 p.m. December 2. The mail following will close at 4 p.m. December 13. As mail sent by the dispatch of December 13 is not likely to reach Dawson and Mayo until after Christmas, the public is advised to post Christmas mailings in time for the mail on December 2. Parcels cannot be sent to points north of White Horse unless they are paid for at letter rates.

Fixing Restaurant Wages—The

Department of Labor of the province has made selection of the two commissionaires who will go into the matter of setting the minimum wages to be paid in the restaurant line of business. Mr. E. D. Perry, a Vancouver restaurant operator, and Mr. Harry Wood, business manager of the Cooks and Waiters' Union, will be the two who will act with Mr. J. D. McNiven, Deputy Minister of Labor, in setting the wages. This commission will act under the provisions of the Minimum Wage Act in a similar way to which the previous commission on the subject of the lumber industry carried out its work, and which covered a period of several years.

Fires in Ireland

WATERFORD, Irish Free State, Nov. 30.—Four fires of mysterious origin, taking place almost simultaneously, today swept the two main streets of the place. Miss Dorothy McNaughton spent the week-end in Victoria as the guest of Miss Helen McKim.

Mr. and Mrs. W. Rivers have had as their guests their daughter and son-in-law, Mr. and Mrs. Victor Sandwick, of Vancouver.

At the previous bridge party held at the Moore Club last Friday evening, the prizes were won by Mr. and Mrs. A. J. Pierce and Mr. and Mrs. J. Clegg.

Cowichan Bay News

Mr. T. W. Smith and Mr. P. DeGrey, are guests at the Cowichan Bay Inn.

Miss Saunders, of Chemainus, was the guest of Mr. and Mrs. Harry Cole for the week-end.

ILLUSTRATED LECTURE

"Under the Union Jack" was the subject of an illustrated lecture given by Major A. T. Foote to members of the Army and Navy Veterans, in the rotunda of the club-rooms, 512 Port Street, last night. The audience was taken to different parts of the British possessions by means of lantern slides while the lecturer described the illustrations.

ROYAL SOCIETY TO HOLD "AT HOME"

At the invitation of the president of the local branch of the Royal Society of St. George, Rev. R. W. Lee, an "at home" has been arranged to be held in the Conservative Club Rooms, Campbell Building, on Tuesday next, December 6.

The purpose of the gathering is to stimulate interest in the work this society is doing among members of the English race in fostering the best English traditions in Canada for the good of the race. Some of the ideas which the society exists for are: the teaching of patriotism, and display of the flag; to reverse the memory of the patron saint, Saint George, William Shakespeare, and the large army of illustrious men who have left their impress in moulding the thought of the British people throughout the world.

A programme of unusual interest is promised. Some of the artists who will contribute are Miss Eva Hart, Mrs. Georgina Watt, Mrs. Morden, Mr. Frank Tupper, and others. Refreshments will be served. The programme will commence at 8 o'clock.

Weddings

HAWKINS—PENDRAY

Very quietly the marriage was celebrated yesterday afternoon at 2:30 o'clock at St. John's Church, of Lottie Pendray and Mr. Thomas Hawkins. Only immediate members of the two families were present, the officiating clergyman being Rev. F. A. P. Chadwick, and the best man was Mr. Walter Loney. The bride wore her travelling dress under a handsome ermine-trimmed wrap, and carried a bouquet of roses. Mr. and Mrs. Hawkins left by the afternoon boat for Seattle, en route for Southern points, where the honeymoon will be spent. They will return in about two weeks' time to take up their residence here, the bridegroom being a partner in the firm of Hawkins & Hayward.

Lecture on China

A second lecture on China in the series on "Problems of the Pacific" will be delivered by Dean Brock at Victoria College this evening at 8:15 o'clock. The University Extension Association invites all interested in the subject to be present at this lecture.

Bobby—He hit me because I let him copy my answers.
Mother—That can't be the reason.
Bobby—Sure! My answers were wrong.

Why make the pudding?

HOWEVER enthusiastic you may feel over the preparations for Christmas, there's no joy in staying home chopping the peel, cleaning fruit, crumbing bread, then mixing and steaming for hours in a hot kitchen while the family and friends are out enjoying themselves.

After all... why make the pudding? Long ago women discovered that others could make their bread for them and their jams, soups, pickles and dressings more economically than they could do it themselves. Now the 4X Bakery is relieving hundreds of mothers of Christmas baking and giving them time to go with the children in their fun.

4X Cakes and Puddings are made by professional bakers using your own quality ingredients throughout. Phone your Store or the 4X Bakery and leave your order now.

SHILLY'S GUARANTEE SATISFACTION

Acknowledged Aristocrats at Toronto Show

THE aristocracy of Canadian and American catdom is well represented in the international title show of the Royal Canadian Cat Club at Toronto, Ont. Nearly every one of these high-priced pussies, incidentally, has a silken cushion on which to hold court. Here on the left is Bun Tav, \$2,500 feline, snapped in the act of making cat love to a stone squirrel figure. He is a Siamese male, sweepstakes winner of the show and owned by Miss Margaret Lyan, of Detroit. On the right is another prize male, Lanline Gingerbread Boy II, a solid red Persian, owned by Mrs. Carl Benson, of Toronto.

World-Famous Stories

THE WEDDING

By FEODOR M. DOSTOEVSKI

(Feodor Mikhailovich Dostoevsky, 1821-1881, is one of the most familiar names in Russian literature. His novel, "Poor People" and his "Crime and Punishment" are both widely read.)

Just five years ago, on New Year's Eve, I was invited to a children's party by a man high up in the business world. Really, it seemed to me that the children part of it was merely an excuse to enable the parents to come together and discuss matters which concerned them. Being an outsider, however, I spent the evening rather apart from the others.

There was a guest that interested me very much, named Julian Mastakovich. He was an honored guest whom the host took great pains to please.

One little girl among the children also fascinated me, for she was, though only eleven, as lovely as a cupid. She was quiet and thoughtful, with large, full, dreamy eyes. The children had somehow offended her, and she left them to walk into the same room where I had withdrawn. There she seated herself with her doll in a corner.

"Her father is an immensely wealthy business man," I heard the guests telling each other in tones of awe. "Three hundred thousand rubles are set aside for her dowry." Just then my glance fell on Julian Mastakovich. He stood listening in an attitude of concentrated attention, with his hands behind his back and his head tilted a little to one side.

Then I noticed how careful our host had been to give each child a gift in accordance with its station in life. The little maid of which I have spoken received the handsomest doll. And the child of the governess—a tiny chap of ten, thin, red-haired, freckled—received a small book of nature stories without pictures.

I like to observe children. It is fascinating to watch the individuality in them struggling for assertion. Being driven away from the other children, the governess' boy came where the little cupid-maid sat with her doll. She let him sit down beside her, and the two began to play with the doll busily.

Julian Mastakovich entered the room suddenly. He had slipped away from the other adults under cover of a noisy scene among the children. And I had noticed he was eagerly conversing with the rich little girl's father, to whom he had just been introduced.

He stood still for a while, reflecting and mumbling to himself, as if counting something on his fingers. "Three hundred thousand rubles—hmmmm. Already set aside for her dowry—hmmmm. Let's see, in five years that will have increased to—that is, with sound investment, no doubt at four per cent, or even more, for he's a sly old fox. Five hundred thousand, at least. Anything above that would do for pocket money—hmmmm."

He blew his nose and was about to leave the room when the girl and I stood still. He did not see me. He was quivering with excitement. He rubbed his hands and danced from place to place, and kept getting more excited than ever. Finally the bride was coming.

Short of Breath Dizzy, Sinking Spells COULDN'T WALK FAR

Mrs. L. A. Oliver, Granville Ferry, N.B., writes: "A few years ago I had dizzy, sinking spells so bad I could hardly stand up without taking hold of something to support me, and I could not walk any distance on account of being so short of breath. I had taken a lot of doctor's medicine, but it did me no good, only for the time being, so reading in the B.B.B. almanac about

I decided to try them and found them to be just what they are recommended to be, and I feel that I owe my life to them."

HORSEBACK HERO ON LOCAL SCREEN

Hoot Gibson in Well-Balanced Melodrama Featured at Columbia Today

Hoot Gibson lives up to the stirring title of his latest Universal-Western, "A Hero on Horseback," the screen version of Peter B. Kyne's "Bread Upon the Waters," which is the top spot at the Columbia Theatre this week.

Exceptionally well directed, the picture gets away from the usual theme and the routine action of most Western films that strike out along a new path with a plausible plot, well-balanced melodrama, and human interest appeal. Gibson again demonstrates that he has a flair for comedy to add to his spectacular performance as a dexterously galloping mustang and dexterity with his side arms.

PLAYHOUSE Dolores Costello conceded to be the most beautiful screen lady of the world, starred by Warner Brothers in the great melodrama of the sea, "A Million Bid," is now showing at the Playhouse Theatre. "A Million Bid," a Robert Dillon adaptation of George Cameron's famous story, is intensely dramatic, giving Miss Costello the emotional role of her unparalleled career.

DOMINION It is being freely predicted that the subtleties of the lady of the world, starred by Warner Brothers in the great melodrama of the sea, "A Million Bid," is now showing at the Playhouse Theatre. "A Million Bid," a Robert Dillon adaptation of George Cameron's famous story, is intensely dramatic, giving Miss Costello the emotional role of her unparalleled career.

COLISEUM The Ray Bell Company at the Coliseum Theatre are presenting this week a hilarious comedy entitled "Everybody's Doing It," which is without a doubt the funniest comedy that any stock company has ever produced in this city. It is just laugh after laugh from start to finish, and it will be a long time before so much comedy will again be inserted into any kind of a play. "Everybody's Doing It"—little more need be said, as those who have seen the Ray Bell Stock Company know that they certainly put the show over. On the screen is Richard Dix in "Shanghai Bound."

CAPITOL All the thrills of a big football game, the cheering crowds, the clash of opposing lines, the forward passes and the goal kicks, are provided in "The Drop Kick," starring Richard Barthelmess, which is now at the Capitol Theatre. The management are offering some extremely fine and diversified vaudeville entertainment, which includes Weston and Brenda, piano and violin artists supreme, in "Musical Legues," a novelty musical presentation. Albert McGillivray, "The Circus of the Air," is here again in response to repeated demands, and Tiny Dena Pastro, a dainty Russian dancer, completes the bill with some very clever dancing.

LAST Friday's enthusiastic reception of the Co-Optimist Comedy Company's clever play is certain to be equaled in the presentation this week of "A Tight Corner." It is another of those screamingly funny farces which this talented company, under the direction of Mr. and Mrs. Legge-Willis, know so well how to produce.

"A Tight Corner" has for its theme the scheming and plotting of a brainless woman who imagines she is in love with the husband of her friend. She is brought back to her senses after a harrowing experience, during which she has herself looked in a box, and almost sold at auction. Every situation is ridiculous and warranted to produce continuous laughter.

The Crystal Garden Orchestra, under the leadership of William Tickle, will also present a number of selections from the latest musical shows, and after the play the entire audience is invited to adjourn to the south ballroom, where dancing will continue until midnight.

LIFE OF NELSON TO SHOW ON SCREEN AT COLISEUM MONDAY

Approved by the British admiralty, who actively assisted in its production, and acclaimed enthusiastically by naval authorities here, such as Commander Hore, R.N., and President Sam Harris, of the Navy League, there will be shown at the Coliseum Theatre next week a British picture entitled "Nelson," which should convince the public finally that British can produce pictures as good as the best.

Nelson is probably the most vivid and dramatic personality in the pages of British history. Certainly he is the outstanding naval hero, and it is around his life that this epic of the greatest era of the British navy has been constructed.

In Gorgeous Mandarin Yellow with Black Tips

See this Duofold Duette flash its colour as the box is opened. See eyes flash their thanks to you.

This striking combination—Parker Duofold Pen and Pencil—is the new ultra in a writing gift this year—the sensation in the stores. Put it down on your list, several times.

But get your Mandarin Yellow Duettes early, for the newest of the inimitable Parker Colours won't last long!

Both Pen and Pencil made with Parker's permanent non-breakable material—28% lighter than the rubber formerly employed.

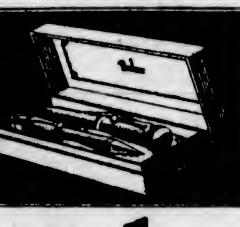

Such light weight adds immensely to your writing ease. So does Parker's Touch, which further distinguishes the Parker Duofold Pen this year.

In the Parker Pencil—the lead turns out for writing, in carrying. New leads inserted without taking pencil apart.

Other colours are Lacquer-red, Lapis Lazuli Blue, Green Jade or Flashing Black.

But don't depend on colour only—look for "Geo. S. Parker" on the barrel if you want the genuine Duofold.

TRAVELOGUE TALK TO BE ATTRACTIVE

Mr. M. P. Greenwood Adams Will Speak at Variety Theatre Tomorrow

Twenty years of travel in all parts of Australia have equipped Mr. M. P. Greenwood Adams with comprehensive material for a travelogue and established him as one of the foremost authorities regarding the Antipodes. On Friday evening he will give a lecture on "Australia and Its Wild West," illustrated with some very fine films and slides, at the Variety Theatre, Government Street, under the auspices of the National Council of Education.

Shown in England, these all-British films attracted huge audiences, and some of the comments of the London press were as follows:

"The film is wonderfully interesting, and there is hardly a section of it which does not teach the cloakroom something of Australia which he did not know before."—The Times.

"The film gives a most fascinating insight into what is today one of the least known regions of the world. . . . Nobody who has the opportunity to see it should neglect the chance."—The Telegraph.

A wondrous travel picture. Through the medium of this film and Mr. Adams' informative talk we are taken through the vast island continent and learn most surprising things. The Referee.

As the accommodation at the Variety Theatre is limited, those desirous of attending are advised to purchase their tickets in advance to avoid disappointment. These may be secured at Fletcher Bros., The Times, The Colonist and at Diggon's.

LULU ISLAND CHOSEN FOR JAPAN'S FLIGHT

VANCOUVER, Nov. 30.—Officials of the Imperial Aeronautical Association of Japan have been cabled by Y. Miwa, air attaché of the Japanese Embassy at Washington, recommending Lulu Island field, near Vancouver, as the terminus of the Japanese trans-Pacific flight which will be attempted next year.

Jane picked her ashes with a practiced finger. Then: "So they go to the lights now. It used to be the club—or business—or a sick friend."

This was quite beyond me and I looked my bewilderment.

"My! Judy, you're terribly innocent for a girl who has been around as much as you have. When I mean that men used to tell their wives that they had business engagements when they wanted to stay out; now they say they're going to the lights. Shows how we're progressing."

Now it hadn't occurred to me to doubt that Jim was going to the lights. I had given him credit, at least, for being honest and above board with me. But this thing that Jane was saying gave the whole affair quite a different complexion.

"I guess they're all alike, Judy," she went on. "I suspect that a married woman earns every bit of happiness she can squeeze out of the married relation."

"I'm afraid you've hit the nail on the head, Jane. All I have to say is this: if you want to keep your illusions, don't marry."

At once she was full of sympathy. "You poor kid!" She came over to the couch and put her arm around my waist. "I'm awfully sorry, Judy. But I can understand, now, why there are so many divorces."

"Divorce?" I almost screamed. "Don't get excited, Judy. I don't mean that there's any question of divorce as far as you and Jim are concerned. Only I begin to understand why."

By now I was completely unnerved. The possibility that Jim had lied to me was a frightful thing. If he should once lie to me, my faith in him would forever be destroyed. Anything but deception!

At ten I took Jane to the car. Then I came home and went to bed.

The bed was damp and cold. I huddled in a heap, wrapped my feet in my gown and gave myself up to utter misery.

So this is marriage. I missed bitterly. This is the mess of pottage that I gave up my career. For this the privilege of staying home alone in a scary house while my husband is out, heaven knows where. I had exchanged my own pay envelope, my freedom to have my own friends, to entertain them without criticism.

A neglected wife. . . .

"So This Is Marriage"

By JUDITH WEST

CHAPTER XXII

Jim called up from the office at five.

"Hello, Honey; how's everything?"

"All right, I guess."

"But why the chilliness?"

"Chilliness? No chilliness that I can see."

"You're not peeved because I'm staying down town, are you, Judy?"

"Peeved? Certainly not! Ha, ha. Well, I should say not!"

"Well—I didn't know—your voice sounded kinda funny. Jane's coming out to stay with you, isn't she?"

"Yes. I asked her to come to dinner. Brought a chicken."

"Whistling. 'Where, sounds like a party.'"

"Oh, I guess we won't be lonesome."

"Well. . . . I'll be home early, Honey, but don't wait up for me."

"Don't worry about that."

"Jim was right. My voice was chilly. I intended it to be. For I was in an ugly mood and I took no pains to disguise the fact."

Unappreciative, ungrateful, that's what he was. Hadn't I done everything on earth to make him happy?

Let him get bored. . . . Let him go down and have dinner with Andy at Romano's dirty barn of a place. . . . Let him go to vulgar fight. . . . Let him! Just see if I care.

Romano's, indeed! Romano's where the stables are covered with sticky oilcloth; where you have to wipe your knife and fork and spoon on a napkin before you dare use them; where they make their soup of everything but the kitchen sink.

What's the use, I asked myself, of running up big laundry bills to keep immaculate tablecloths for a man who prefers—prefers, mind you—to eat on an oilcloth.

Oh, I would have my revenge. I would give Jane such a dinner as she had never had before—indeed, Jim would get nothing like it at Romano's.

Nor would Jane dream that I was a neglected wife; that I had been eating my heart out for an ungrateful husband. Just like a tragic drama: the joyous setting, the heart-broken wife laughing and crying desperately to pretend sanity.

I was tickled to death to see Jane. Good old Jane; we hadn't had a really good heart-to-heart talk since my marriage. And how she had hated to have me marry!

I realized, of a sudden, that I was lonesome to talk to a woman, for, however much a woman may love her husband, she can't talk to him as she can to her woman friend.

And Jane raved about everything, the house, the grand new furniture, the white kitchen. She wiped the dishes for me, complimented me extravagantly on how quickly I was learning to cook, and relayed all the trivial office gossip that is meat and drink to the business man.

When we had drawn up our chairs before the fire she asked: "Is Jim working tonight?"

I was tempted to tell her that he was. But—Why not tell the truth?" I asked myself. "We have told each other our troubles for the last two years; why, just because I am married, should I have to suffer my heartache alone?"

For it does seem to offer a certain relief, this telling of our troubles. And I couldn't tell to Vera after the way she had been acting with Jim. Jane, however, shallow old Jane, was a passive sort of person, anyhow, and I knew she would listen sympathetically to my side of the story.

"No, Jim isn't working, Jane," I answered. "Jim is having dinner with Mr. Adams with an old friend."

"A man?"

"Oh, of course!"

"That's what he says," she answered with a little smile.

"Oh, but I am sure it is a man. In fact, his name is Andy, and they're going to the lights afterwards."

Jane picked her ashes with a practiced finger. Then: "So they go to the lights now. It used to be the club—or business—or a sick friend."

This was quite beyond me and I looked my bewilderment.

"My! Judy, you're terribly innocent for a girl who has been around as much as you have. When I mean that men used to tell their wives that they had business engagements when they wanted to stay out; now they say they're going to the lights. Shows how we're progressing."

Now it hadn't occurred to me to doubt that Jim was going to the lights. I had given him credit, at least, for being honest and above board with me. But this thing that Jane was saying gave the whole affair quite a different complexion.

By now I was completely unnerved. The possibility that Jim had lied to me was a frightful thing. If he should once lie to me, my faith in him would forever be destroyed. Anything but deception!

At ten I took Jane to the car. Then I came home and went to bed.

The bed was damp and cold. I huddled in a heap, wrapped my feet in my gown and gave myself up to utter misery.

So this is marriage. I missed bitterly. This is the mess of pottage that I gave up my career. For this the privilege of staying home alone in a scary house while my husband is out, heaven knows where. I had exchanged my own pay envelope, my freedom to have my own friends, to entertain them without criticism.

A neglected wife. . . .

How I hate that term, "neglected wife!"

All at once it aroused every ounce of fight left in me. I'd be darned if I'd be a neglected wife. What's sauce for gander is sauce for the goose. Next time he went out, I would step, too. Any time I would sit at home again and wait for him!

A car ground its way up the hill. Perhaps it was Jim. . . . perhaps, but no, the car passed out of hearing.

How had this unhappiness come to be? We had married with the fixed idea of making ours a modern, sensible marriage. We were to be free. My own words hurtled back to me in the darkness of the bedroom.

"No two people, Jim, can possibly be everything to each other. They must have outside contacts; they must meet other minds on other mental planes. . . ."

Pool! How easy to generalize before the fact. Just let me take a night off, go out in search of "other mental planes" and hear old Jim roar!

Another car came up the hill. I held my breath and waited. No. But yes. It was the Antique! No other car in the world could grind like that and not shudder to pieces.

Jim was home. . . . Jim was home!

I would shout out of the window to let him know I was waiting for him. I would run to the door to meet him. Jim, my Jim, was home again.

My feet were groping for my slippers; my hand was reaching for my robe when "silly," said my common sense, "are you so anxious then to let him know that you can't even go to sleep unless he's home?"

I crawled back to bed, my heart heavy again. I drew the covers up to my chin and closed my eyes. I would pretend I had been sleeping soundly.

His step on the porch. . . . his key in the door. . . .

But what an unearthly time it was taking him to unlock the door. At last. . . . door closed, softly.

Then—a crash, a shattering, never-to-be-put-together—again crash.

Rennie & Taylor Win To Practically Take Soccer Championship

Defeat Saanich United, 6-2, and Need Only One More Victory to Cop Title—Tillcums Down Navy and Bays Humble Garrison

LEAGUE STANDING

Rennie & Taylor	7-0	128	7.15
Hudson's Bay	5-2	123	9.11
Tillcums	4-3	121	13.9
Garrison	4-4	118	14
Saanich United	2-6	94	43.4
Navy	1-7	70	110.2

YESTERDAY'S RESULTS

Rennie & Taylor 6, Saanich United 2.

Hudson's Bay 3, Garrison 0.

Tillcums 1, Navy 0.

Only one change took place in the standing of the Wednesday Football League clubs yesterday, the Garrison dropping to fourth place, due to their defeat at the hands of the Hudson's Bay. Rennie & Taylor continued their march pennantward by accounting for the Saanich United, Bays still hold second berth, four points in rear of the league leaders. Tillcums defeated the Navy to take sole command of third place. Saanich United, with four points to their credit, occupy fifth position, with the sailors in the cellar. The games were played during a continual rainfall, which made the fields slippery and the ball heavy. As a result very little good soccer was witnessed.

PRACTICALLY CINCH TITLE

Rennie & Taylor practically clinched the championship of the Wednesday League when they handed Saanich United a 6-2 drubbing at Royal Athletic Park. The teams put up a terrific battle in the first half, but the bakers outplayed, outgassed and outbounced the suburbanites in the second stanza to add five more goals, while they held Saanich to a lone counter. One more win will give the bakers the title.

Despite a slippery field and heavy ball, the brand of soccer was good, but nothing spectacular was seen. Saanich United put up their best efforts in the opening canto, but the bakers' experience and ability passing game in the last half, had them completely at sea.

The bakers opened the attack from the whistle, and after five minutes of play Purdy scored the opening counter when he headed Speak's centre pass. Gilliam, about fifteen minutes later, scored when he took a rebound from one of the bakers' backs. Saanich United had the edge in the last fifteen minutes of this half and gave Lomas plenty of work, but without result.

GOALS COME QUICKLY

Goals came in quick succession in the second half, Rennie & Taylor netting five before Saanich added their other. "Dutch" Davis opened with the first one from a difficult angle, after Gilliam had cleared two fast shots. Hay followed with another. Speak scored two more, and Purdy, with the bakers' last, while Brown scored for Saanich just on the whistle.

Speak, Borde and Tupman played good soccer for the winners, while Gilliam and Love were the outstanding men on the Saanich team. Hewison refereed and the teams were:

Rennie & Taylor—Lomas, Newman, Gilbert, Stewart, Borde, Tupman, Davis, Purdy, Speak, Hay and Taylor.

Saanich United—Gilliam, Ash, Hogarth, Lynn, Love, Barry, Brown, Hawkes, Woods, Spry and Ralph.

THREE IN SECOND HALF

Garrison held the Bays scoreless in the first half at Beacon Hill, lower ground, only to have their opponents come back and net two goals in the second canto. Kicking down the slope in the first part of the game, the Tumblers had the better of the play, but Shrimpton, between the sticks, put up his usual finished exhibition and they found it impossible to score. Bays showed fine combination runs, but fell down badly in front of goal. A penalty, given against the losers in this half for hands, was kicked over the bar by Gardiner.

With the resumption of play the Bays were the better team. Twenty minutes from the start, Mair scored after Lingren had made a couple of fine saves from King and Fish. Still on the attack the Bays made a 2-0 when King scored with a hot drive at close range.

Garrison took up the attack for a short period after the centre, but were never really dangerous. Returning to the offensive, Bays staged some dangerous rallies and Lingren saved a number of shots in fine style. Woodley put on the finishing touches to the scoring when he met the rebound from Oakman's shot and beat the goalie all of the way. Garrison worked hard and, in final stages to avert a whitewash, their forwards resorted to long shots, without result.

P. O. Kerr handled the whistle and the teams were:

Hudson's Bay—Shrimpton, Hagen, Gardiner, Oakman, Woodley, Kerchish, Fish, Playfair, King, Mair and Collier. Rennie, Currie and Ralph.

Garrison—Lingren, Quinn, Farrar, Simpson, Moorehouse, Middleton, Burdock, Blehard, Kemp, Craig and Graham.

RIGBY'S GOAL GIVES WIN

A lone goal by Rigby in the first ten minutes of play gave the Tillcums a 1-0 victory over the Navy at Beacon Hill, upper ground. The winners, with the slope in their favor in the first half, had the edge on their opponents. Rigby's goal was cleverly executed. Taking the ball on a pass from the wing he beat the defence, and went in close to the leather in the far corner of the net out of reach of Barker.

The Navy goal was subjected to a number of close calls before the half.

time whistle, but no further scoring resulted.

In the second half of the game the sailors dominated the play, but erratic shooting prevented any score. On numerous occasions they had their opponents on the run, but their efforts to sag the net were either high or wide. Mair, outside right, sent in a sizzler which struck the upright and rebounded out of play for the most dangerous call during this half. Sewell, of the winners, and Roberts, of the Navy, were the best men on the field.

MacKay refereed, and the teams were:

Tillcums—Sallaway, Campbell, Wright, Davis, Clark, Sewell, Cann, Fletcher, Hamer, Rigby and Plater.

Navy—Barker, Temple, Prizieu, Dyrson, Roberts, Whyte, Marr, Gee, Hutton, Patterson and Conier.

Two Youthful Stars in the N. H. L.

DUKE MCCURRY NORMAN HINES

THE above picture shows two youthful players in the National Hockey League, who are expected to figure prominently this season. On the right is shown Duke McCurry, sensational substitute centre and wing man of the Pittsburgh Pirates, and Norman Hines, centre of the New York Americans. Neither the Americans nor the Pirates have been showing much this season, but the above players have been flashing great form. Both broke into major league hockey last year.

HOOP CONTESTS ARE ONE-SIDED

Hudson's Bay Defeat Garrison, 43-8, in City Basketball League Fixture—Navy Wins

Famous English Cricketer Honored

LONDON, Eng., Nov. 30.—G. L. Jessop, the famous Gloucestershire and England cricketer, and secretary to the Edgware Golf Club, and his wife, have been presented with a silver tea service by the members of the club, in celebration of their silver wedding.

In his cricket career, Jessop scored in first class cricket 29,930 runs, with an average of thirty-two, playing forty-four three-figure innings. Though it is as a batsman he is chiefly remembered, he took 878 wickets for twenty-two runs each. On four occasions he made two separate hundreds in a match, and in first class cricket made five scores of over 200. For Gloucestershire against Sussex at Hove, in 1903, he got 286 out of 355 in 178 minutes.

MRS. JACKSON WINS PAR COMPETITION

Mrs. E. Jackson won the "A" class monthly match played against par yesterday at the Uplands Golf Club, when she finished eight down. Mrs. E. Watson took the honors in class "B", being seven down.

NEW YORK, Nov. 30.—Canada will probably be asked to send one or more polo teams here for the conclusion of the indoor season, according to The New York Times. Overtures are being made to Argentina and Canada for entrance of teams in the National championship, and possible later international events.

WINNIPEG, Nov. 30.—The proposed formation of a senior hockey league in Manitoba has been definitely abandoned, it was announced here today by E. A. Gilroy, president of the Manitoba Hockey Association. Lack of ice accommodation was given as the reason for the action, which leaves Manitoba without a senior circuit for the first time in many years.

RUNOLATHE IS DISQUALIFIED

Winner of Fifth Race Has Number Taken Down for Crossing—Harry H. Bell Given First Place

BLUE ROSE PAYS \$38.80 IN FOURTH

TIJUANA, Nov. 30.—The first disqualification at the Tijuana racing season occurred here today when Runolathe, with Jockey Lindseth up, was disqualified for crossing in the fifth race, but Runolathe won the race, but the judges ruled him ineligible, and substituted Harry H. Bell's number instead. Miss Alma was placed, and Glenister was given show berth. The place horse paid \$12.

Blue Rose created a sensation when Jockey Crow piloted her home a winner in the fourth event to pay \$38.80 to win and \$16.60 place. Prices today were unusually low. Golden Sweep paying \$19.40 to win in the sixth and Starless \$19.20 in the seventh. Air Castle paid \$23 to place in the second.

Attractive Rugby Programme to Be Offered Saturday

Double-Header Will Be Played at Willows—Victoria High Will Meet Vancouver—Brentwood to Battle University

An attractive Rugby programme will be presented on Saturday with the double-header at Willows Oval as the feature attraction. The first game of the twin bill will get under way at 2 o'clock when Victoria High School will oppose Magee High School, of Vancouver, in a Thompson Cup fixture. The coveted silverware has been resting on this side of the gulf waters for the past two seasons, and Coach Harry Smith is confident his boys will retain the trophy.

Immediately following the Thompson Cup game Brentwood College and University School Intermediate fifteens will battle for the championship of the first half of the league schedule. This game will see two of the finest Rugby machines in the city in action. In their previous meeting the teams battled to a scoreless draw after a hectic struggle.

University School have only had their line crossed once this season, while they have amassed close to one hundred points. Brentwood boys have also established an enviable record and should prove a hard team to put under.

BAYS TO MEET SERVICES

In the senior league the J.B.A.A. will clash with the United Services at Victoria High School ground for the leadership of the league. The combined forces started out by accounting for the Bays and the Pirates, but last week were repulsed.

MILLERS CHALK UP FIFTH WIN

Defeat Winnipeg Three to Two—Kitchener Keeps First Place in Canadian Pro League

MINNEAPOLIS, Nov. 30.—Minnesota registered another American Association hockey victory tonight, defeating Winnipeg 3-2, making a clean sweep of the two-game series. It was Minneapolis' fifth straight triumph in as many starts, and gave them a lead of eight points in the association standings.

BATTLE TO DRAW
NIAGARA FALLS, Ont., Nov. 30.—The London Panthers and the local Cataracts battled to a 2-2 tie here tonight in a Canadian professional fixture that was replete with thrills and fast hockey. The checking was decidedly heavy though only nine minor penalties were imposed.

MILLIONAIRES WIN
KITCHENER, Nov. 30.—Hamilton Tigers, for the second time this year, were defeated by Kitchener Millionaires, the score being 7-2. The victory keeps the locals at the top of the standing in the Canadian Professional Hockey League.

COSTLY PENALTIES
TORONTO, Nov. 30.—Captain Bert Corbeau paid dearly for his two acts of overzealousness in the Canadian Professional League game here tonight, for while he was serving time, Stratford crashed the West Enders' worsted forces for two goals, enough to give them the victory by 2-1.

UNION LABELS ARE REGISTERED

OTTAWA, Nov. 30.—More than thirty labor unions have registered union labels under the Trade Mark and Design Act since legislation for this purpose was passed at the last session of Parliament. Approximately 50,000 workers are represented by the registrations, most of whom are engaged in the clothing, boot and shoe, cigar making and printing trades. There are forty-six label trades in Canada, affording employment to over 65,000 workers. In many cases labels are not in active use.

Labels are used to indicate that wages, hours and other working conditions are satisfactory to the trade union. Their use is subject to agreement between the unions and employers and may not be used without the employer's consent. A fine of from \$20 to \$500 may be imposed under the Act for affixing a label without authority.

WOMEN LIKE FLYING SCHOOL

Women have taken to the idea of the exclusively feminine flying school which was recently opened just outside of Milan, Italy, by the Aero Club of Milan. There were five candidates for the opening day, and since then the number of pupils has greatly increased. All the instructors are kept busy. The first of the twenty-five lessons consists in a flight as a passenger, and the pupil is thoroughly coached until she is able to fly alone in windy weather when atmospheric conditions are considered to be not favorable. Candidates must be at least eighteen years old, must pass a severe medical test, and must have permission of both parents, or if married, of the husband, to fly.

Matched for Another Test With Mickey Gill

HARVEY HOLLIDAY

VANCOUVER, B.C., Nov. 30.—Irish Mickey Gill and Harvey Holliday, who fought a sensational ten-round bout here about a month ago, have been rematched to meet in a ten-round bout on December 9.

Gill won a close decision in the previous bout, but not until the hard-hitting Holliday had him on the floor twice. It was the first reverse that Holliday had met in his boxing career of some thirty-five odd bouts.

Another bout on the card that will vie with the main bout in drawing power, is the six-round semi-final between Joe Wilson, the Vancouver colored Tartar, and Walter Clegborn, the Alaskan Indian battler. Clegborn is one of the few boxers who have faced Wilson and emerged victorious.

Three four-round bouts which are in the making will complete the card.

French Airmen to Fly North From Argentina

BUENOS AIRES, Nov. 30.—The French airmen, Dieulenne Costes and Joseph Lebrex, who flew from Paris to Buenos Aires in record time, have fixed Friday morning for the start of their flight to New York.

They will take off at dawn for Rio Janeiro, intending to fly directly to Santiago, Chile, and along the west coast of South America to Panama, and thence to the West Indies, Cuba and New York.

Broker Arrested

VANCOUVER, Nov. 30.—Al Marks, alleged salesman for C. P. Porter & Co., stockbrokers, whose offices at 510 Hastings Street West were raided at noon by police, was arrested at 3:30 p.m. by Detectives J. Killen and A. Alcox, and charged with operating a bucketshop.

Papers seized in the firm's offices disclosed information which led to the arrest of Marks.

It is alleged that the operations of the firm in Vancouver ran into large figures weekly.

Gorman Wants Plenty Of Time for Training

SAINT JOHN, N.B., Nov. 30.—Charles L. Gorman, world's amateur skating champion, has announced that he will not represent Canada at the Olympic Games, opening at St. Moritz in February, unless he can be on the scene in plenty of time to become acclimated and train properly. Gorman said lack of proper training for the Olympic races in 1928 was the cause of his defeat; and he does not intend to have history repeat itself in that regard.

Nova Scotians Stage Heart-breaking Battle With Heavy Southeaster Only to Lose Lives

SURVIVORS MAKE
PORT IN ROWBOAT

ARACHAT, N.S., Nov. 30.—Two Petite de Grat fishermen lost their lives yesterday after a heart-breaking battle with big seas and a south-easterly gale sweeping the waters, and others escaped the same fate only by heroic efforts and fine seamanship.

Ned Doroche and William Bowen were fishing in their motorboat, and another boat was nearby, manned by Walter Simpson and Amadee Boudreau.

When the gale sprung up the two boats headed for home, the larger carrying the three men, making better time. At one time the men in the larger boat, glancing astern, saw that Bowen and Doroche were in difficulties. They turned back into the gale and found that a heavy sea had swamped the smaller boat, and carried away Doroche.

Bowen had lashed himself to the half-submerged motorboat, when the other bore down to render aid, but the rescuing craft became a tool in the hands of the elements, it was lifted high and crashed down over the already damaged Bowen craft, sending it to the bottom with the man who had lashed himself to it in the hope of saving himself.

The rescue boat suffered such damage that the crew could not land safely. The three occupants barely had time to cut free the painter of the larger motorboat disappeared. They frantically rowed back to the spot where Bowen disappeared but saw no more of him. They then rowed home before the gale and landed safely.

Both Bowen and Doroche were unmarried, with families of young children.

Clam Bay presents a scene of activity with several tugs and boats waiting for favorable weather.

NANAIMO SHOW FINE SUCCESS

POULTRY, PIGEON AND PET-
STOCK ASSOCIATION STAGE
RECORD EXHIBITION

All Classes Well Filled—Some En-
tries Refused for Want of
Space

NANAIMO, Nov. 30.—The Winter show held by the Nanaimo Poultry, Pigeon and Pet Stock Association, in conjunction with the Nanaimo branch of the B.C. Provincial Rabbit Breeders' Association, was a record success in all its branches and an education in what can be achieved by local co-operative effort. The poultry, pigeons, bantams and cage birds were of outstanding quality and entries had to be refused for lack of space, classes being well filled. Over 250 rabbits were shown, every worthwhile breed being well represented, while crowds of interested spectators visited the wonderful fur displays. Awards in the rabbit section, in each case the word "monita" being understood, were as follows:

Cumberland Branch Of Canadian Legion Has Enjoyable Dance

CUMBERLAND, Nov. 30.—The fortnightly whist and dance of the Cumberland Branch of the Canadian Legion, B.E.S.L., held this week, was very successful and thoroughly enjoyed. Prize-winners were: Ladies, Mrs. Balagno; second, Mrs. L. H. Finch; second, Mr. F. Smith. Refreshments were served by the ladies' auxiliary; dancing followed, to music supplied by Mrs. Hudson, piano; Messrs. Robertson, violin; Thompson, saxophone; Les Dando, drums. A beautiful basket of candy, donated by Mr. and Mrs. Fraser Watson, was won by Mr. Bates.

GOOD PROGRESS ON TOFINO ROAD

TOFINO, Nov. 24.—(By Mail).—Operations on the Tofino-Ucluelet highway have been suspended for the season, during which a satisfactory amount of progress has been accomplished, the right-of-way having been stumped and graded the whole way through. The work carried out this summer consisted of the last mile of stumping required to link up the road from each end, about three miles of machine clearing, and three miles of machine grading. Seventeen bridges were constructed of heavy timber, decked over with three-inch planking; twenty culverts were built, and five old bridges renewed. All that now remains to be accomplished in order to render it fit for heavy traffic, is a system of ditching in the swampy locations, and a liberal surfacing of gravel.

Saanich Y.P. Society

KEATING, Nov. 30.—The South Saanich Young People's Society of the United Church will meet for its regular session in the church parlour on Tuesday evening, December 6, at 8 o'clock. The intellectual committee will have charge of arrangements after the business has been disposed of and has arranged for an address by Mr. B. C. Nicholas.

CANNERY ENJOYS PROFITABLE YEAR

Claycoot Company Suspends for
Season—Sockeye Scarce, But
Total Pack Satisfactory

CLAYCOOT, Nov. 30.—The Claycoot Sound Cannery Company has suspended fishing operations for the season. Fourteen thousand cases were put up, and although, can for can, the intrinsic values were less than in former years, the fact that they canned over 14,000, as against 11,000 of last year, served to equalize the difference in the individual values of the canned fish produced.

Only 1,000 cases each of sockeye and coho were canned, which was an unusually poor showing for this cannery. But 3,500 cases of pilchard and 8,400 of dog salmon, although of less value than the aforementioned varieties, saved the situation to such an extent that it cannot be designated an unprofitable season.

MEETING AT COLWOOD

COLWOOD, Nov. 30.—The monthly meeting of the Colwood Optimists' Club will be held at Nightingale on Saturday, December 3, at 8 p.m.

Legion Branch Will Give Colwood Dance

COLWOOD, Nov. 30.—The second of a series of dances given by the Prince Edward Branch, No. 91, of the Canadian Legion, will be held in the Colwood Hall on Friday, December 9, from 8 p.m. to midnight. A four-piece orchestra will provide the music and some good prizes will be given and refreshments served.

OLD-TIME DANCES

GIBBINS ROAD, Nov. 30.—An enjoyable evening was spent at Viny Hall on Monday, about seventy-five persons attending a practice of old-time dances arranged by Mr. R. Evans. Music was supplied by Mr. H. Robinson. Refreshments were served and a collection taken to defray expenses.

Tremor in Chili

SANTIAGO, Chile, Nov. 30.—A strong and prolonged earth shock was felt at noon today at Ovalle, rocking homes of the inhabitants, but no casualties were reported.

ANTI-PROHIBITION CAMPAIGN PLANNED

NEW YORK, Nov. 30.—A financial campaign for three million dollars for a prohibition referendum was formally launched today by the National Association against the Prohibition Amendment.
Approval will be sought at the coming session of Congress for a national referendum at the 1928 Presidential elections on repeal or modification of the existing prohibition law, Captain William H. Slayton, president of the association, asserted. Failing that, the fight, he said, will be carried to the individual states.

JAPANESE ORANGES ARE MAKING RECORD

VANCOUVER, Nov. 30.—Importation of Japanese oranges through the Port of Vancouver will reach a new high mark this week-end, when three steamers arrive from the Orient, carrying a total of 500,000 boxes for distribution in British Columbia and every other province in the Dominion.

Of the total shipments, no less than 420,000 boxes are booked for overland points, and will be moved in 210 cars over both railways.
The Japanese liner Paris Maru, due on Friday, has a consignment of 150 carloads, all for Prairie and eastern Canadian points, and constitutes the largest single shipment ever made on one steamer from the Orient. The liner Proteus is due on Monday with 84,000 boxes also for eastern consumption, while the liner Empress of Asia, due Sunday, is bringing a shipment of 80,000 boxes for British Columbia distribution.
It is estimated that a total of 800,000 cases of Japanese oranges will reach Vancouver before the season closes.

At an R.A.F. training depot an instructing officer was explaining the use of the parachute. He invited questions. "What would happen, sir, if the parachute failed to open when I jumped off?" asked a fatuous cadet. "Oh, that wouldn't stop you," replied the officer kindly "you'd come down just the same."

As a matter of fact, I don't think the extra hour's sleep is worth having. It's just a snore and a delusion.

Health and Diet Advice

By DR. FRANK MCCOY

A REAL CURE FOR ASTHMA

The first thing for the asthmatic sufferer to do is to stop the use of any drug he is taking. This includes the elimination of adrenalin, serums, morphine, opium, smoking powders, coffee or caffeine in any form.

The next step in the cure is to completely cleanse the alimentary canal of any accumulated food or toxic fecal matter. At least two enemata daily should be taken, and more if necessary, to assist in eliminating intestinal gas.

No food of any kind should be used for at least four or five days—no milk, soup, coffee, cocoa, or any other drinks except whatever water is desired. This is a simple "water" fast and will bring about the quickest relief in getting rid of asthmatic wheezing, and will work wonders in assisting in the elimination of accumulated bronchial mucus.

The water fast should be continued for longer than four or five days if it is necessary, extending it to ten or fifteen days if symptoms persist or the tongue remains heavily coated and the breath foul. No fear need be felt about the consequences of the longer fast as only good results will follow. This fast has been taken by many thousands, and thousands of actual cures reported, without a single harmful experience.

After all symptoms have subsided, and it seems advisable to break the fast, the following dietary regime should be followed: Upon arising in the morning take a few calisthenic exercises in a room with plenty of free circulation of air. Follow the exercises with a cold shower bath, then—

Breakfast: The whites of two or three eggs prepared in any manner except by frying; two or three pieces of Melba toast, browned all the way through. Choice of a small dish of one of the following stewed fruits: prunes, figs, raisins, or apple sauce. These should be prepared without adding any sugar. No cream or milk should be used.

Luncheon: Choice of one or more, as desired, of the following vegetables: celery, spinach, small string beans, asparagus, Summer squash, cucumber, egg plant, beet tops, turnip tops, small beets, small carrots, small parsnips, small turnips, lettuce, okra, chayotes, oyster plant (sakafy), mallow, kale, zucchini, parsley, nasturtium leaves.

Dyspepsia Troubled Him for Many Years

Mr. J. Savoy, Logville, N.B., writes: "I have suffered for many years from dyspepsia, and could not seem to get any relief. One day I told my wife I thought I would try a bottle of

and when I had half of it taken I felt a lot better, so I continued until I had taken two bottles, and now have no pains and no coated tongue, and feel that I am completely rid of my trouble.

LIVE COUGAR CUB EXHIBITED HERE

Making a total of thirty-two cougar cubs so far this year killed and captured by himself and two cougar hounds, Mr. E. R. Lee arrived in the city yesterday with a three-month-old live cougar cub caught near Campbell River. The animal is at present domiciled at the Westholme Hotel pending a decision as to its fate.

Cecil "Cougar" Smith, of Comox, also has been successful in his quest for mountain lions, shooting a seven-foot one yesterday afternoon on Red Flag mountain in Metehost district.

Fifteen purebred sheep have been slaughtered during the past two weeks between Rocky Point and the Kangaroo Road by cougars and it was at the urgent request of the Metehost Sheep Raisers' Association that Mr. Smith was sent down from Comox by the Provincial Game Board for the second time this month.

CANADIAN DOCTORS ARRIVE IN LONDON

LONDON, Nov. 30.—Twenty doctors from Canada have arrived here for the inspection of potential immigrants from this side of the Atlantic to the Dominion under the new pre-embarkation medical examination scheme which has been placed in operation by the Canadian Department of Public Health. It is hoped that by testing the fitness of prospective immigrants before they sail, the possibility of their rejection on arrival in Canada will be practically eliminated.

TRAINMAN GETS ANONYMOUS GIFT

TORONTO, Nov. 30.—A gift of \$50 from an anonymous donor has been received by Arthur G. Bonisteel, trainman of the C.P.R. flyer wrecked at Dockrill on Sunday, as a slight token of appreciation of the valiant rescue efforts Bonisteel made following the collision with a freight train. Bonisteel was a leader in the work among the injured, according to eyewitnesses. He is at his home in North Toronto recovering from his injuries which were not serious.

News and Notes of the Interior

PRICES OF APPLIES

PENITENTION—The Associated Growers have raised the price of boxed apples, late winter varieties, twenty-five cents per box above the minimum set by the Board of Control. As the Associated has approximately 500 cars of apples still on hand, this increase will run into a substantial figure, nearly \$100,000 additional for the Associated members. Twenty-five cars have already been moved out at the new price. The Penitention Co-operative has about 50,000 boxes of late winter apples on hand so should receive an additional \$12,500 for its members because of this price raise.

KAMLOOPS ELKS' HOME

KAMLOOPS—The auditorium of the Elks' new home was formally opened in the presence of a distinguished company which included Lieutenant-Governor Bruce and Miss Helen Mackenzie, Premier MacLean, Mayor Taylor of Vancouver, Mayor Melgren of Kamloops, and J. R. Colley, M.L.A. A feature of the celebration was a banquet for a

thousand guests. The Elks' new hall is a community enterprise probably without a counterpart in British Columbia.

SERBIANS AT PRINCETON

PRINCETON—There are about 250 Serbians employed in the mining camps of this district, of whom about 200 are Jugoslavs and fifty Czechoslovaks, according to Mr. Stephen C. Raymer, of Vancouver, who has been spending a few days here visiting the various camps. He reports them all as being happy and well satisfied with their circumstances.

FALLS INTO LAKE

MERRITT—Armstrong's Kamloops-Merritt stage while traveling along the Nicola Road came to grief yesterday with fortunately no injury to the driver or passengers, beyond a ducking in the ice-cold water of Nicola Lake. The stage and a truck were in collision, and the former was forced over the bank into the lake, where the water is four or five feet deep. The driver and two passengers escaped without injury.

ALICE ARM ORES

ALICE ARM—That Alice Arm's silver ores lend themselves to complete reduction on the ground and shipments of mine products might be made in silver bullion, rather than concentrates, having an expensive item of transportation, is the opinion expressed by P. E. Peterson, mining engineer of the firm of Brewer & Peterson, which has lately taken an option on the Tiger property at Alice Arm.

Barkerville Operators Find Miners' Equipment From Pioneer Gold Workings

Commenting on mining progress in the Barkerville district, Mr. A. O. Hope, who has been engaged with General F. A. Sutton during the Summer in connection with mining properties, and is now registered at the Dominion Hotel, says that the Hopp mine on Lowhee Creek, the chief hydraulic mine in the district, has come across the abandoned workings of half a century since, and found tools forsaken by the miners in the early days, which could still be used.

The Kafue Copper Development Company's dredge has been engaged this season, while two well known mining companies are reported interested in the field, the Consolidated Mining & Smelting Company, and the Granby Consolidated Mining, Smelting & Power Company. Both of these companies are preparing for the future, as are also interests backed by General Sutton, who has previously operated gold mines in Siberia.

In lode mining Mr. Hope referred to the work of Mr. C. J. Seymour Baker, who owns the property formerly held by the Island Mountain Mining Company, and of two properties on Prosperine Mountain, where promising surface showings indicate that good bodies of ore will be encountered, as geologists have forecast.

Mr. Hope reports a considerable revival in mining interest in Cariboo, with particular reference to the future possibilities of access if the projects for the extension of the Pacific Great Eastern Railway go through. The proposal to save the old court

house at Richmond, a frame memorial of the early days of the gold-fields, has aroused the attention of the district.

Alberta Hotelmen

CALGARY, Nov. 30.—All proposed amendments to the Alberta Liquor Act were voted down at the annual meeting of 200 Alberta hotelmen this afternoon, and a resolution adopted expressing confidence in the Liquor Control Board. The proposed amendments favored longer hours for the sale of beer, the right to take bottled beer off licensed premises, and the right to sell beer in dining-rooms. The convention went on record as disapproving of all three. Restriction of the sale of "canned beer," or a change in the formula followed in its manufacture so it will be absolutely unfit for human consumption, was advocated in one of the resolutions adopted. This is to be forwarded to the Alberta Government. Approval was given to the proposal to form a Western Canada Hotelmen's Association, the ultimate purpose being to form a national organization to promote the general welfare of the industry.

Sure Way to Get Rid of Blackheads

There is one simple, safe and sure way that never fails to get rid of blackheads that is to dissolve them. To do this, get two ounces of peroxide powder from any drug store—sprinkle a little on a hot, wet cloth—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Buy Blackheads, Little Blackheads, no matter where they are, simply dissolve and disappear. Blackheads are a mixture of dirt and dirt and secretions that form in the pores of the skin. The peroxide powder and the water dissolve the blackheads as they wash right out, leaving the pores free and clean and in their natural condition.
